

LUNATIC LEGACY

By Different Folks

CHAPTER FOUR

But while Sam was in doubt whether to remain where he was or move forward the weather decided it for him. Then came a rain, a regular deluge and Sam began to wonder if he must build a boat and wander around awhile or what. His late experience in the tunnel made him resolve that he would confine himself strictly to places on the earth. He wanted no more under the earth or in bowels of the earth. "Terra Firma," was good enough for him, he thought as some man suggested there were adventures he could seek "in the air" if he wanted variety in his experience. Besides his money was getting low and how was he to make anymore. A job was just at hand, the rain had done so much damage and then ever so many washouts, there was an immediate demand for his help to repair Nature's damage. Shoulder your pick-axe and shovel and come and help us out. Sam thought such a job was much beneath his dignity, but he had to have something to pay for his daily bread. He felt sorry for himself that he didn't have a father to whom he could turn for wherewithall to spend. Perhaps it was good for him now he had to meet single handed all such emergencies. His athletic experience had toughened him a little for this hard work, but whether bitter or sweet he never complained.

The gentleman who was boarding at the house still interested him very much. He proved to be a very literary man representing a New York periodical, attracted by the world renowned reputation of Asheville as a summer resort, and while he was down here he said he was going to make a close study of the mountain people. He used to rehearse at the supper table every night the fruits of works and words among them, said he was charmed with them, their integrity, their sincerity and their naivete. He used to invite Sam to attend with him some of their social functions, but Sam was too tired every night after his hard days work for social life. But all Mr. Blank said about mountain people, Sam took to himself, for was not he a mountaineer once, his father had been one of them and look how his father had risen to a position of honor and wealth, and for the first time in his life he realized he was proud of his father even if he hadn't left him any legacy except that curious puzzle. It occurred to him that perhaps his father wouldn't be proud of him if he could see him at his present job, but necessity was laid upon him in this case. The road had to be repaired and he had to have some money to get away. But before he got away there was another question he had to settle, there was a teacher wanted for a mountain school and they had asked him to qualify. He was a university graduate and would he bury his talent to that style? He would be ashamed for any of his former friends to see or hear him doing such an insignificant job. Oh well he didn't have any purpose in life, and since they begged him so hard he consented to try it a few months.

A sneaking idea crept up in the back part of his brain any how that he ought to be willing to do a little for his own people and so like Micawber while he was waiting for the next thing to turn up, he started a school for his mountain brothers and sisters. He only thought he would endure the job for a few months and to his utmost surprise he found himself getting interested in his job. Away in the dim past, he had heard some Y. M. C. A. secretary talk about investing your life where it would bring the largest returns and that thought kept bobbing up in his mind now.

He was helping those mountain boys and girls wonderfully, developing them physically, socially and mentally but that was as far as he could carry the fourfold life development recommended by the Y. M. C. A. Sam went into their home but he was in despair over the bread they made and put on the table before him. But courtesy forbids his saying anything. It made him think of a verse he read once in the

BARIUM SPRINGS, N. C., JUNE 1945

No. 9

Mr. J. F. Stinson

The farm at Barium Springs is one of our big enterprises. It is a man-sized job to keep everything on it co-ordinated, to get crops in the ground, to get them properly harvested. Alfalfa has a habit of sneaking up on a wheat harvest and crab grass just sneaks up on you any time. Mr. Stinson has been the farm boss for several years. He has been a most faithful employee of the orphanage for many years before that. The farm has prospered under his management, and the yields of grain, hay and other crops have been consistently good.

A lot of things have to be kept going smoothly for this department to pay off. There are two tractors, two trucks, nine mules, about eighty sheep, and some twenty-five boys. Stir all that up and you can get a lot of headaches if they don't mix right.

Mr. Stinson manages to keep all of this moving along so smoothly that many of us have gotten in the habit when our own headaches pile up on us to take a trip around the farm and relax. Somewhere on the farm we will see something to revive our enthusiasm.

We delight to do our honor to this man who finds something to do 365 days in the year, and a lot of the nights.

Sipes Orchard Home Has House-Warming

The Sipes Orchard Home had a house-warming on Sunday, June 10th. Now the weather was such that a house could warm up with very little effort on that particular day, and the crowd of friendly, cordial people who gathered to look through this new institution would warm anybody's heart.

It was our good fortune to go with a group from Barium Springs to look through the initial building of this enterprise. The location is perfect - right near a Church and not too far from a school. The building would make an orphanage man just a little envious. It is built so sturdily, and yet with an eye to comfort and beauty. It will soon, no doubt, be the home of twenty-two boys and we all wish for them the splendid career that this opening seems to predict. Reverend L. C. Pretty is the superintendent. He has made many visits to Barium. He is a kindly man and enthusiastic for his work. We believe he is equipped to absorb the headaches and irritations that work with children sometimes develops; that he can face these things without turning sour, that he can retain his sense of proportion and be looked upon as a true father to the boys who will come under his care. As a neighbor in the same line of work, we at Barium wish him and his associates well, and we hope there may be many pleasant contacts between these institutions.

See Page Three For Honor Roll Of Boys And Girls In Service

The senior class of 1945 contributed money for a Display Cabinet giving the names of all the boys and girls in the service from Barium Springs and this immediate vicinity.

A copy of this roll is being displayed on the third page of the Messenger. There are two hundred and twelve names on it. Those with a star in front of their names have lost their lives in the service. This Roll is not exactly a Church Roll, it is not exactly an Orphanage Roll, nor a School Roll, but all of the names here belong to our community. They either grew up in the Orphanage, were members of our Church, or attended our school, or were members of our staff. They truly belonged to our family.

We have not indicated where they are serving nor what rank the various individuals have attained. We do have the addresses of most of these members of our family and send them a letter at least every two weeks.

Alumni News

Pvt. Charles Smith of Camp Croft spent Sunday with us.

Gene Dunn has entered the Navy and is taking his Boot Training at Bainbridge, Md.

We are enjoying having Pleas Norman RDM 3-c spend his furlough with us. He has temporary duty at Miami.

Gwyn Fletcher has been promoted to electrician mate 1-c.

Capt. A. D. Potter is back in the U. S. after 37 months in the Galapagos Islands.

Ruth Monroe spent the week-end with Mildred and Kathleen recently.

Born to Mr. and Mrs. Ernest Clark of Wilmington, on May 2nd, a son, Joseph Ernest.

Burford Robinson has entered the Army and at present is at Fort Bragg.

During the commencement season we were glad to have a number of our Alumni back with us. We noted the following: Paul Burney, Ray Lewis, Bill Tyce, Martha Price, Bennett Baldwin, Charles Hooten, Margaret Royal, Mrs. Jack Weeks (Virginia Cranfull), Sadie and Ed Flowers, Sally and Ed Cole, Ruth Cole Fletcher, Wilma Jessup, Helen Moore Fours, Betty Whittle, Helen Thomas, Mrs. Robert Mills, Mrs. Melvin Sexton (Lula Bell Hall), Lt. and Mrs. Walter Fraley.

A letter has been received from Dalma Jessup stating that he was liberated April 34. He has spent fourteen months in a German prison. In a letter to Wilma he wrote, "I became a free man on the 24th of April. Was liberated by the Russians. Am thinking of getting back and having a big time. Hope it's soon. So much has happened in the past three months that I am unable to write it down. The Germans left a bunch of us who were on a sick party behind and what has happened is what I was really hoping for. Of course you will let all my friends know. Nothing serious is really wrong with me."

Pvt. Mott Price was accidentally shot in his hand and is in a hospital in Paris.

Geraldine Blue of Elon College was married recently to Lt. Luther Wesley Martin of Elon College. (Continued On Page Two)

Annual Meeting of Board of Regents Held Here In May

The annual meeting of the Board of Regents was held at Barium on May 15th. It was a record breaker in a number of ways. All committees except one met on the afternoon and night of the 14th, and many of these committees had a full attendance. On the day of the meeting only one man member was absent and two of the women. Seventeen of the twenty being in attendance. Two of the absentees had attended an Executive Committee meeting just the week before so they might be credited with an attendance at this meeting.

At the spring meeting a lot of attention is usually given to the finances, and the financial report this year was good, but more time was spent in looking into the real work of the orphanage and a review was made of the various entries since way back in 1931. There was one child in the graduating class who entered that year - fourteen years ago. The review took up each year's list of entrants and a brief study was made of what had been done in a physical and educational way for each of them, where they had gone, and what they are doing now.

Three members of the Board were attending their last meeting. The limitation for length of service on the Board being set by Synod at two terms. The retiring members are J. S. McKnight of Shelby who has been chairman of the Finance Committee for many years. Mr. McKnight's faithfulness in attendance and his close attention to the details of the duties of his committee have made him a most valuable member of the Board. Mrs. J. M. Walker of Charlotte has for several years been chairman of the Case Work Committee which each year reviews the intake and the outgo and the general run of applications that come to the Orphanage. Her committee, reviews the real work of the institution and her interest and enthusiasm for the work of that committee has certainly put more enthusiasm into our work here.

Mr. S. Parks Alexander of Durham is the third member to retire this year. He has been on several committees, most of his work being on the Finance Committee. The successors to these three members will be elected at the Fall meeting of the Synod.

Along about the middle of each month, there is a Birthday Dinner and the Birthday Dinner in May came so near to the Regent's meeting that it was moved up one day so that the Regents could be guests. [Continued On Page Four]

News From the Campus At Barium

BABY COTTAGE

Here are the babies again since we last wrote you we've been real busy moving around dodging our newly painted floors and beds.

Mrs. Massey, Miss Whitner, and Miss Bryant went home for a rest and we sure do miss them. Our new matrons are Miss Taylor and Nina Berryhill. We have three new house girls, the Coffey twins and Mary Morgan. At first we couldn't understand how one girl could be around all the time but now we catch on. There are two of them just alike.

Donnie Privett had company last week and so did Tommy Lane and Buddy Cochran.

We went on a walk after supper yesterday and stopped by the swimming pool. The pool was being filled so we went wading while it fit us instead of the big boys and girls. While trying to keep us from falling Katherine Arrowood gave a big splash and boy did she get wet! Here comes Myrtle with the wash rag so we had better run.

SYNOD COTTAGE

Hello Folks,

School is out and we are all having a swell time.

We have had quite a change in our family. Jimmy Freeman, Jimmy Harrison, Donnie Campbell, Billy Ennis, Frankie Smith and Gene Thomas have moved to Lee's Cottage. Jerry McArthur, Walter Plyler and Charles Andrews have come from Baby Cottage to live with us. We also have a new boy, his name is John Lewis Nunn.

We are really having a good time in the swimming pool. We get to go in every morning and boy, does that water feel good!

Vacations are the talk of the campus now. Four of our boys are away at the present. We all are looking forward to our week at "Camp Fellowship" especially those of us who can't go on vacations.

—The Wiggles.

INFIRMARY

Hello Folks,

This is the new Infirmary girls bringing you the latest news of the month.

We have four new girls down here this time, they are Vivian Jacumin, Betsy Dishman, Annie Marie Andrews and Edna Thomas. Katherine Stevens has been here a year. But she is still one of us.

We have three patients down here now, they are Betty Ann Andrews, Louise Surlis and Tommy Lain. The infirmary boy is Bobby McMannan.

We are all so glad it is coming Summer time so we can go swimming. The swimming pool looks so good and cool to us when we are hot.

We are all looking forward to having a good time tonight, we are going to get our new shoes.

The black berries are already getting ripe. We went black berry picking yesterday and when we got back Miss Hattie made us a pie. Boy was it good!

We have taken in two new children this week, they are Mary Lou and John Louis Nunn and we are glad to have them with us.

We are looking forward to going to camp this year and on vacations. Mr. Johnston sure is a good man to do all those good things for us.

The campus is beginning to look so much better for the boys are cutting the grass and trimming the shrubs, and everything is so pretty

and green.

Well this is the infirmary girls saying so long until next month.

The Little Nurses.

PRINTING OFFICE

As of to-day June 12, 1945. The printing office of Barium Springs, named after Franklin Ayery Sherill in a loving memorial to his wife, Jenny White Sherill, is approximately four years, three days, and a matter of hours old.

It has served us faithfully, keeping out stormy weather, rough winds, and blistering heat.

There are four hundred and forty five windows in the printing office and out of four years of service three have been broken.

The printing office consists of five boys growing in wisdom of the art of printing everyday. We shall start at the bottom and discuss these learners. Our two printers devils are Edward Theodore Walker, and Thomas Dwight Reid. Then our printers out of the fundamental stage are Dewey Donald Mitchell, known by fellow workers as "Don", James Lafayette Reid, classified as "Pee Wee" by his mates. Then we come to myself Earle Franklin Allen known by the crowd as "Dirty".

Mr. Edwin Kenneth Kyles professor of printing, doctor of broken machines is known and respected, and a good example for his students.

Mr. James Ephram Martin, mender of soles, plays an important part in the organization. He is the shoe man. His office is the basement of our printing office. Mr. Martin has been in the shoe shop the greater part of his life and we feel safe when we put our shoes into his hands.

The printing office consists of eight power driven machines, and one proof press. All in running order kept that way by our doctor of motors. There are three stones and four tables scattered about the place, and in a corner built for it stands our metal melting pot. Many a blister has come from there.

Three cases of type stand ready for use in the various corners of the shop.

The stones are laden with type for we are almost ready for press.

As one of the printers speaking for the rest we hope you have enjoyed your column.

— Earle Allen

RUMPLE HALL

School is out and we are beginning to have vacations.

The swimming pool is open and we are having a lot of fun in it.

We have changed girls in our cottage and we also have a new girl. Her name is Mary Lou Nunn. She came from Kinston.

We have two different matrons. Upstairs Miss Duke and downstairs Miss Sarah Parcell.

Two of our girls are going on a conference at our camp next week, they are Shirley Inman and Louies Campbell.

So long until next month.

—The Rumble Hall Girls

JENNIE GILMER

Hello Folks

Here we are again bringing you our monthly news. Since we wrote you last ten boys have moved into our building and ten have moved out. The new boys seem to like their new home. The new boys are Mac Wicker, Dwight Reid, Jerry Ennis, Billy Manus, Alfred and Jerry

Williams, Bobby McMannan, John Junius Wicker, Richard Huddleston, and Robert Lee Hall.

It is not long before camp starts and all of us are looking forward to it. Vacations have started and some of our boys have already left.

The boys who do not get a vacation get two weeks at our camp. The summer seems to be flying by bringing school ever nearer.

So long until next month.

— The Dairy Boys

FARM

During the winter months our employees have carried on the work faithfully, but now that school is out we are pitching in very enthusiastically with our work and have already started getting good sun tans working in the fields.

Bob Temp, who is our oldest employee of the farm, has had bad health but who is still wanting to work was transferred to the kitchen to help our girls get out the meals. Bob certainly hated to leave the farm but in a way he still feels that he is working with them getting the meals to the hungry boys when they come in.

When our former farm boss left us, Mr. Stinson who was one of our farm employees stepped in and has been running the farm ever since, and he is doing a grand job of it. Mr. Stinson is a very remarkable man as he is always a day ahead of the weather.

Ed Young who is now our oldest farm employee is still going strong and can follow the fastest mule we have. Claude Stinson and Eb are cultivating partners and they seem to enjoy each others company very much as every time you look their way they are laughing at something. The boys call Claude "Ooga Looga", because he calls the pigs so well.

Horace Whelman and Mr. Troutman are our tractor-men and they are having a busy time hauling hay, harvesting wheat, oats and barley by the use of the combine. They keep all our machines in good working order and well oiled. They are still arguing who is the biggest grease-monkey.

Otis Sherrill who has been with us a little more than a year is Mr. Stinson right-hand man with the crops and with us boys. The boys have played the hands several baseball games with the employees of Barium and we were very surprised to see Otis' curves which very few of the boys could hit.

There has been alot of changing about since school closed and we have only five of our former farm boys left with us. They are Tommy Hudgins, Earl Adams, Jack Clark, John Denton, Amos Hardy, Donald Pettus, John Meroney, Jack Mangum, and Bob Whiting who is our faithful water-boy (we hope).

Mr. Stinson gave the three farm boys who graduate this year, Fred Cole, Gene Bounous and Mac Rogers, a big supper which will account for their sudden increase of weight. Mr. and Mrs. Stinson give this supper annually to the farm boys who graduate and we are certainly looking forward to it.

With a neigh from the horse a grunt from the pig, a baa from the sheep, and a good-bye from the boys, you will be hearing from us next month.

— Amos Hardy

SEWING ROOM

Hell'o Folks,

This is the S. S. S. S. (Sit, Sew, Sweat, and Spread) girls bringing you the months highlight of the Sewing room.

We have all been working hard and according to our motto "As we sew so shall we rip". We never have a spare moment.

Now for some news about our girls:

Lucille Smith has her mind on a certain guy far away. Mary Frances Isenhour keeps our morale up by talking about a chocolate cake (which she hopes her daddy will send her). Adelia Knight sleeps all the time and snores so loud that Miss Mona Clark gets her and the machine mixed up.

Eleanor Pope is still talking about going to Catawba College in 1941 (if a certain guy is still there.)

"Bush Fiemster has been selling eggs to get enough money to go see the "general". I think she has 88 cents so far. Keep up the good work, "Bush".

Maggie Katen doesn't say much during work hours.

Helen Hawley is on her vacation and we wish her a good time.

Hannah Price, with the glowing red hair, still has a gleam in her

eye for a certain cadet.

Miss Mona Clark, our sewing room matron, keeps us all happy by keeping us busy.

Until next month, bye.

— The sewing room girls and Miss Mona Clark.

LEES COTTAGE

School is out and the teachers have gone home. We miss them, but we are glad school is out. No more studying for a while.

Swimming time is here and you ought to be at the swimming pool around five o'clock and see the heads bobbing up and down.

Seven boys moved to our cottage from Synods and we are breaking them in on the truck farm.

Ten of our boys moved to Jennie Gilmer and we know they are having a good time working with Ralph.

We are all thinking of vacations now. Some of the boys are going this week.

We went to the show the other week to see "God is My Co-Pilot." It was a grand picture.

We are looking forward to a happy time this summer.

— The Lees Boys

HOWARD COTTAGE

Dear Friends,

Here we are again telling you our latest news.

We have been having beans to string once in a while.

We have had a few girls from another cottage, and we really have fun.

Some of our girls have gone on vacation and we really miss them.

It has been raining a lot but the weather is getting better.

We went in swimming Tuesday afternoon and we really had fun.

One of our girls Gerladine Katen is going home to stay today and we will miss her.

Shirley Thomas is going on a vacation today and we wish her a good time.

Well we had better be closing now.

Goodbye friends.

— The Bean Stringers

STULTZ COTTAGE

Greetings friends,

This is the first report of news of 1945 that will be brought to you from Stultz cottage.

Since school is out there has been a lot of changes in our living quarters and work groups, and we are settling down for the summer.

Well vacation time is finally here again. Some of the boys seem very excited, and are planning on visiting relatives and friends. We hope they will enjoy every moment of their vacations and wish them best of luck.

Horace Denton and Donald Pettus have been transferred to the farm, although they say they work harder and like it.

Jerry Young is our new truck driver. He being vice president of the Senior Young People's League is leaving Tuesday June 12, to attend a conference at Flora MacDonald College in Red Springs, N. C.

W. A. Johnston has been transferred from the farm to the truck farm and orchard group. He has been installed as one of the four new group leaders of the Senior Young Peoples League and will attend a conference with them in Statesville from June 25th to June 30th.

Jack Jones is now working on the gopher group and Herbert Willard is enjoying the truck farm.

Little Miss Beth Jackins is visiting her grandmother in Saint Pauls, N. C. If we know Beth she is having a good time.

— Your correspondents,

W. A. Johnston

Jerry Young

ANNIE LOUISE COTTAGE

Hello Folks,

Well since school is out all we have been "studying" about is vacations. That is our main topic around the campus.

We had six little girls to move in with us and about ten to leave us. Two of our girls have gone home to live with their parents. We miss them but we are glad that they could go.

Hannah Price and Sadie Grey Buie (the girls who help Miss Jackson) have moved out also. Margaret Bullard and Anne Pope were sent in their place.

We all got pretty new bathing suits and we just can't wait to make use of them. We are waiting

until it gets warmer before we go in swimming, but the suits will keep.

Jean Carol Harrison is going to visit her clothing people and we are sure she will have a good time since there's a little girl just her age there. Hurry back Jean Carol we want to hear what all you did on your visit.

Be sure to tune in next month and here all about our vacations.

The Annie Louise girls.

Annual Meeting of

[Continued From Page One]

At the May Birthday Dinner the graduating class is always invited and there were fourteen of them - almost one apiece for the Regents. They acted as special hosts for the Regents, and that made quite an occasion and some of the little newcomers who are always invited to the Birthday table looked with awe and admiration on this gathering of men and women whom they knew had a lot to do with the Orphanage, but they didn't know just how. In later years they will, no doubt, have something to say about their impressions.

You see, all of the new children who come in from the middle of one month to the middle of the next are invited to the Birthday Dinner; and then, of course, they come in on the regular month on which their birthday falls. This means there are a lot of wide-eyed, little newcomers that are guests at this big dinner. It happened that we took in a large number of new children between the middle of April and the middle of May.

The weatherman co-operated beautifully for the Regent's meeting. So often it rains. This time the weather was clear and sunny but cool enough so that the trip over the fields to view the crops was entirely pleasant, and the crops looked mighty good too.

All of these combined to make the Board meeting a most pleasant one. We feel sure that if they could all be like this the Board would insist on having four meetings a year instead of two, and we here at Barium would heartily second that idea.

Lunatic Legacy

[Continued From Page One]

"County Life Reader" used in the Moonlight School of the South; "God made man and woman makes bread.

It takes the bread that woman makes

To sustain the man that God made. But the bread some women make Would not sustain any man that God ever made."

And Sam reasoned within himself, he thought with his knowledge at the sciences, and do it tactfully too, and so he did. He hardly realized himself, how he brought about the better situation but he did.

And now Sam has allowed five years of his life go by and he wasn't getting anywhere at all. There under his instruction, they all seemed to have a purpose and ambition in life. What was his? just to ferret out the puzzling legacy his father had left. He wasn't a step nearer the solution of it than he was the day his father left it to him. And he felt he hadn't settled upon any particular life-work when suddenly something occurred which woke him up, revolutionized his whole view of life and purpose of living.
